BATTALION

BC- LIEUTENANT COLONEL TAYLOR

It's a new year and the Millbrook High School Wildcat Battalion couldn't be more ready. JROTC has started the year off strong this August and September, doing Color Guards for football games and honoring our First Responders during 9/11 by running 110 flights of stairs during PT. The main focus has been instilling discipline and teaching our LET 1s and 2s how to be efficient followers and effective leaders. Archery, Raiders and Drill practices have been in full effect preparing for competitions and our upper LETs have been preparing themselves for life after highschool, planning and meeting with recruiters from military branches and colleges across the state. We're looking forward to having a great year!

ALPHA COMPANY

CO- CAPTAIN THAMMAVONG

Alpha company has went over, rank, chain of command, land nav, uniform expectation, and basic JROTC knowledge. Cadets have started off strong and we're only going to set the bar higher. The goal is to transform all the LET 1s into reliable leaders and followers by the end of the year. Upperclassmen learned personal financial responsibility and planning their future, work ethic and planning future JROTC events such as service learning.

BRAVO COMPANY CO- CAPTAIN KIVIT

In Bravo we spent out time doing drill and organizing supply. We studied land navigation as well as completed the confidence course. Upper LETs have learned financial responsibility, future planning, and work ethic as they navigate getting ready to graduate. These cadets have great potential.

CHARLIE COMPANY CO- CAPTAIN PLUMMER

For the past month, the upperclassmen have been learning how to properly plan and conduct a meeting. They have also have been speaking with recruiters to learn more about how they want to progress in the future after graduating. The LET 1s are studying the phonetic alphabet, the cadet creed, army values and basic knowledge every cadet needs to know.
