Millbrook raider/drill competition (photos):

Battalion

March has been an eventful and successful month. Both of our raider teams, mixed and male, went and competed at the best of the best qualifier in Sanford. Our male team came home with third place overall. This was a great accomplishment in a competition where 30 other teams were hungry to win. The mixed team got 2nd place in the truck pull event and 3rd in rope bridge. Overall, in the Battalion, we successfully completed the cadet challenge, the cadet of the month board, and the confidence course challenge. We also completed a car-wash card fundraiser and Millbrook Highschool's first Raider/Drill competition. We were able to host Millbrook's first competition Saturday, March 26th, where our Raider Kings took first place overall and our Reapers took 2nd place in various events. As a battalion, we're looking forward to improving our drilling and discipline. Overall, all companies have been working on their presentation skills, drill movements, and team-building activities that help us grow as cadets.

Built to be Unbreakable,

C/CSM Santos

Bravo Company

Company commander: Cadet Rodriguez

First Sergeant: Cadet Hodges

March was quite successful for Bravo as we have completed our first home Drill and Raider competition. All this month we have been prepping and planning as the date of the competition came closer and closer. Everything from the setup to the flow of each event of the competitions, to the tear down all went smoothly and we were able to move quickly. Other than that, Bravo has been awarded the Confidence course streamer for completing the obstacle course as a team the quickest. Unfortunately, we were unable to participate in the St. Patrick's Day parade due to inclement weather. We are hoping to have a better and more impactful month in April.

Charlie Company

Company Commander: Cadet Haugland

First Sergeant: Cadet Douglas

The company has been active this month while also having big changes. This month the battalion was supposed to participate in the St. Patrick's parade but due to weather conditions it was canceled, even though it was canceled we worked hard to prepare for it. During March, the company also completed the Cadet Challenge. The company also helped raise money for the battalion and we were awarded the fundraising streamer. Our company has also been able to do the pledge for the last week and so far, I am proud of the cadets that have done it. As most everyone knows the battalion had its drill and raider competition where both raiders' teams were denominated but I want to say good job to all the volunteers from our company that showed up and helped make the competition run smoothly. Overall, this was a good month for the company as we are slowly making it to the end of the year.
