

# BATTALION NEWSLETTER

## BATTALION CSM CARPENTER

In the month of November the wildcat battalion had a good but calm month. We completed our second round of the cadet challenge with all cadets participating along with different color guard events around our community and within Millbrook High School. Our SAI LTC colonel Baker took a selective 15 students to a flight facility to learn about Apache helicopters and the history behind them. Our cadets continued to work hard within the class working on drill and raiders and now the Millbrook Wildcat Battalion has a robotics team that will be up and coming competing in competitions against other schools.

## ALPHA COMPANY

### CO: CAPTAIN THAMMAVONG

For alpha company we are transitioning to a leadership oriented lower class. We're transforming followers into leaders by delegating early responsibility. What this will allow us to do is give them hands on experience for next year. For next year it will become easier for leaders to take their position.

## BRAVO COMPANY

### CO: CAPTAIN KIVIT

In Bravo the LET 2s spent their time studying careers and planning for their futures. And all LETs have been working on robotics. Everyone is very interested in the addition to the program and many of Bravo's cadets are members of the new robotics team.

## CHARLIE COMPANY

### CO: CAPTAIN PLUMMER

This past month, Everyone participated in the cadet challenge where they've all tried their best in multiple athletic events ex) Mile Run, Curl Ups, V-Sit and Reach etc. Separately, The LET 1's have been having class about different things and have ended the month with a briefing about their future profession. The LET 2's and above have been also having class and engaging in very interesting topics as well as presenting current events.
